

SPARK000.00

DISTINCTION: By integrating Specific Practical Applications of Radical Knowledge into your five bodies you change your relationship with the Universe.

NOTES: S.P.A.R.K. stands for *Specific Practical Applications of Radical Knowledge*. S.P.A.R.K.s are written by Clinton Callahan and are copyleft ([Creative Commons Attribute and Share Alike 4.0 International License](#)). This means that S.P.A.R.K.s cannot be copyrighted by anybody. S.P.A.R.K.s are open code thoughtware. They are being shared around the world for free by General Memetics and numerous other teams to upgrade *Standard Human Intelligence Thoughtware* as a way for human beings to grow up, co-intelligently co-habit Earth, and co-create a brighter future together. S.P.A.R.K.s are tools for building bridges to next culture, the culture that comes after matriarchy and patriarchy, the culture called [archearchy](#).

Radical Knowledge is clear, powerful distinctions, formulated into a *meme*.

Memes are comparable to *genes* in that genes are the smallest instructions for the design of your physical body, and memes are the smallest instructions for the design of your intellectual body, your mind, your worldview... your [Box](#).

If you get the idea that *memes are comparable to genes*, then this piece of Radical Knowledge - *the meme about memes* - has entered and reshaped your worldview. You just gained a new tool to think with. If you are sensitive to what it feels like when your mind reorders, you will have noticed this meme about memes reshaping your thoughtware.

Possibility Management distinguishes and works with five separate but connected bodies: the physical body, the intellectual body, the emotional body, the energetic body, and the archetypal body. Having your intellectual body reshaped by understanding a new meme is not necessarily enough to change your relationship with the Universe. It won't guarantee you new results. Achieving the *Ah-hah!* moment goal of *understanding* is merely third prize. First prize is when a S.P.A.R.K. lands in and reorders all five of your bodies. This is when your shape changes. The way to integrate Specific Practical Applications of Radical Knowledge into your five bodies is through re-defining your self-image to include [being an experimenter](#), and from then on playfully experimenting with your new thoughtware.

This is why S.P.A.R.K.s include a DISTINCTION, some explanatory NOTES, and a few EXPERIMENTS to try. Without doing the experiments, the new memes won't practically integrate into your five bodies and your life.

The Universe is all around you, interacting with you according to the shape of your [five bodies](#). By changing the shape of several of your five bodies you force the Universe to flow around you differently. When the Universe flows around you differently your circumstances spontaneously reorder. This is a powerful secret for creating new possibilities and new results in your life by changing your inside rather

than trying to change your outside. By changing your shape you offer the Universe, and its local subordinates at ECCO (Earth Coincidence Control Office) new potentials to use. Being suddenly and unexpectedly transferred into new life circumstances is High Level Fun! Here are some experiments to try to get you started.

EXPERIMENTS: S.P.A.R.K. EXPERIMENTS are part of a massively-multiplayer online-and-offline personal-transformation game called StartOver.xyz. By reading a S.P.A.R.K. you earn yourself 1 Matrix Point. By doing any of the S.P.A.R.K. EXPERIMENTS you earn 1 additional Matrix Point. There is a radical difference between *reading* an EXPERIMENT and *doing* an EXPERIMENT, and ECCO knows the difference... Each S.P.A.R.K. and S.P.A.R.K. EXPERIMENT has its own unique Matrix Code, so that (when the programming is ready) you can register your Matrix Points online at the game platform. The theory is that when we collectively earn 1,000,000 Matrix Points something radically positive will emerge in the human morphogenetic field and the status quo on Earth will change for the better!

Matrix grows when distinctions land in your energetic body to catch and apply more consciousness in your daily life. You can [build matrix](#) in numerous ways, each of them a little uncomfortable, each of them exposing you to the positive stress of awareness-expansion. For example, you can build matrix by traveling on foot in foreign lands, by meditating in the tombs of saints, by accepting and eating whatever the waiter brings you at a restaurant without complaint, by holding and navigating sacred spaces, by caring for babies, by not smiling all the time, by paying attention to your attention and becoming aware of what you are aware of, by staying [unhookable](#) – even with your mother, etc. There are millions of ways to build matrix, each way an experiment. Here are four EXPERIMENTS with Matrix Codes for SPARK000.00:

SPARK000.01 Read this SPARK000 out loud to one other person (not a child). Try to read it into their physical body so that the various distinctions land in their Being, not into their mind. At the end, ask them what they think about it. Listen to them without speaking for at least 3 minutes even when they don't say anything.

SPARK000.02 Read this SPARK000 out loud at your Discussion Group, [Possibility Team](#), or some other meeting. Ask other people to explain the various distinctions as you are reading along. See if these people relate to each other differently afterwards.

SPARK000.03 Email this SPARK000 to 10 people who might like to change their circumstances by changing their relationship to the Universe. This is to not keep these ideas a secret only for yourself. If enough people make building matrix more important in their lives we might just create a better world!

SPARK000.04 Get yourself a *Beep! Book*, a small notebook to carry with you and use while doing S.P.A.R.K experiments. For the first entry, spend 5 minutes writing down what you are aware that you are aware of inside of yourself in that moment.

Welcome to S.P.A.R.K.s,
Clinton
