

SPARK ACW

(Matrix Code: **SPARKACW.00** for StartOver.xyz game.)

DISTINCTION: In a survival situation humans seek collaboration, psychopaths have more fear, less trust. They are unwilling to collaborate, so they seek control through hierarchy.

NOTES: A vanishing food supply causes overpopulation, meaning too many people for the existing food supply. When the food supply vanishes, such as in a famine due to weather changes, draught, insects, potato blight, heatwave, who gets the food? The ones that will do whatever violence it takes to get the food, the psychopaths.
